

BUILDING IN A NEW LIGHT[®]

LEED[®] PRODUCT DATA SHEET

Butler[®] Building Systems

LEED[®] credit can be earned under MR Credit 4: Recycled Content for using a high percentage of recycled building materials.

BUTLER[®] BUILDING STRUCTURAL FRAMING, ROOF AND WALL PANELING

MR CREDIT 4: RECYCLED CONTENT (1 - 2 POINTS)

The following are the various percentages of preconsumer and postconsumer content of each building component. These percentages must be applied to the contract selling price of that particular component. This price is obtained from the Butler Builder[®] who supplies the building.

Component	Total recycled content (%)	Postconsumer (%)	Preconsumer (%)
Frames	74.6	48.4	26.2
Secondary Structurals	70.0	65.0	5.0
Roof Panels	4.5	3.5	1.0
Wall Panels	4.5	3.5	1.0

MR Credit 4: Recycled Content (1 - 2 Points)

- MR – 10% Recycled content (postconsumer + one half of the preconsumer) - 1 pt.
- MR – 20% Recycled content (postconsumer + one half of the preconsumer) - 2 pts.

NOTE

Frames are typically 1/8" or thicker steel.

Secondaries are typically 1/16" up to 1/8" steel.

Panels are lighter than 1/16" steel.
