

SHADOWWALL™ EX

When you need simplified installation without sacrificing appearance, this is the wall system for you.

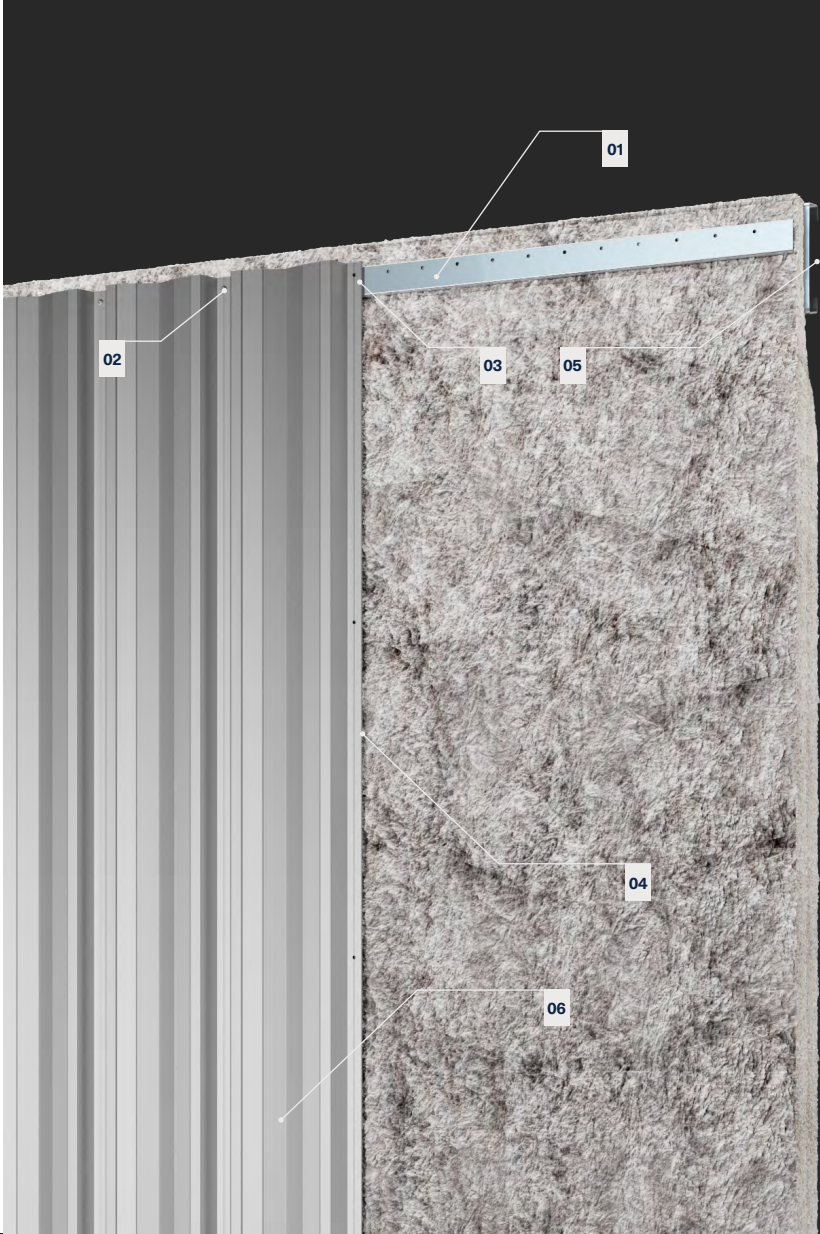

With metal panel thermal performance at a significantly lower cost than IMPs, it improves energy efficiency and features the same clean, modern appearance that Shadowwall is known for.

KEY BENEFITS

- **Tested Energy Performance**
Meets code requirements with standard fiberglass insulation, delivering proven thermal performance without added complexity.
- **Lower Total Cost**
Achieves required performance at a lower installed cost than insulated metal panels, protecting budget without sacrificing results.
- **Better Appearance**
Prevents insulation compression for smooth, consistent wall lines and a cleaner finished façade.
- **Simplified Installation**
Lightweight panels reduce labor and equipment demands, supporting faster, more efficient installation.

PRODUCT FEATURES

- 1. 2½" Stanchion Extension**
Creates an uncompressed insulation cavity.
- 2. Semi-Concealed Fasteners**
Maintain a clean, architectural appearance.
- 3. Factory-Punched Panels**
Support precise alignment and consistent installation.
- 4. 24 or 26-Gauge Panels**
Provide durable performance with 1⅞" corrugation.
- 5. System Compatibility**
Integrates with MR-24® roof system and TBS™ insulation.
- 6. Nested Shipping**
Reduces freight volume and handling time.

SPECIFICATIONS

Panel Type	Shadowall Wall System with stanchions
Panel Profile	1⅞" roll form corrugation
Panel Width	36"
Panel Gauges	24 and 26-gauge steel
Fastener Type	Semi-concealed
Finish Options	Butler-Cote™ finish system
Insulation Options	Fiberglass blanket
Maximum Insulation Thickness	8"
Lowest Tested U-Factor	0.046
Warranty	25-year Butler-Cote finish warranty
