

SHADOWWALL™ WALL SYSTEM

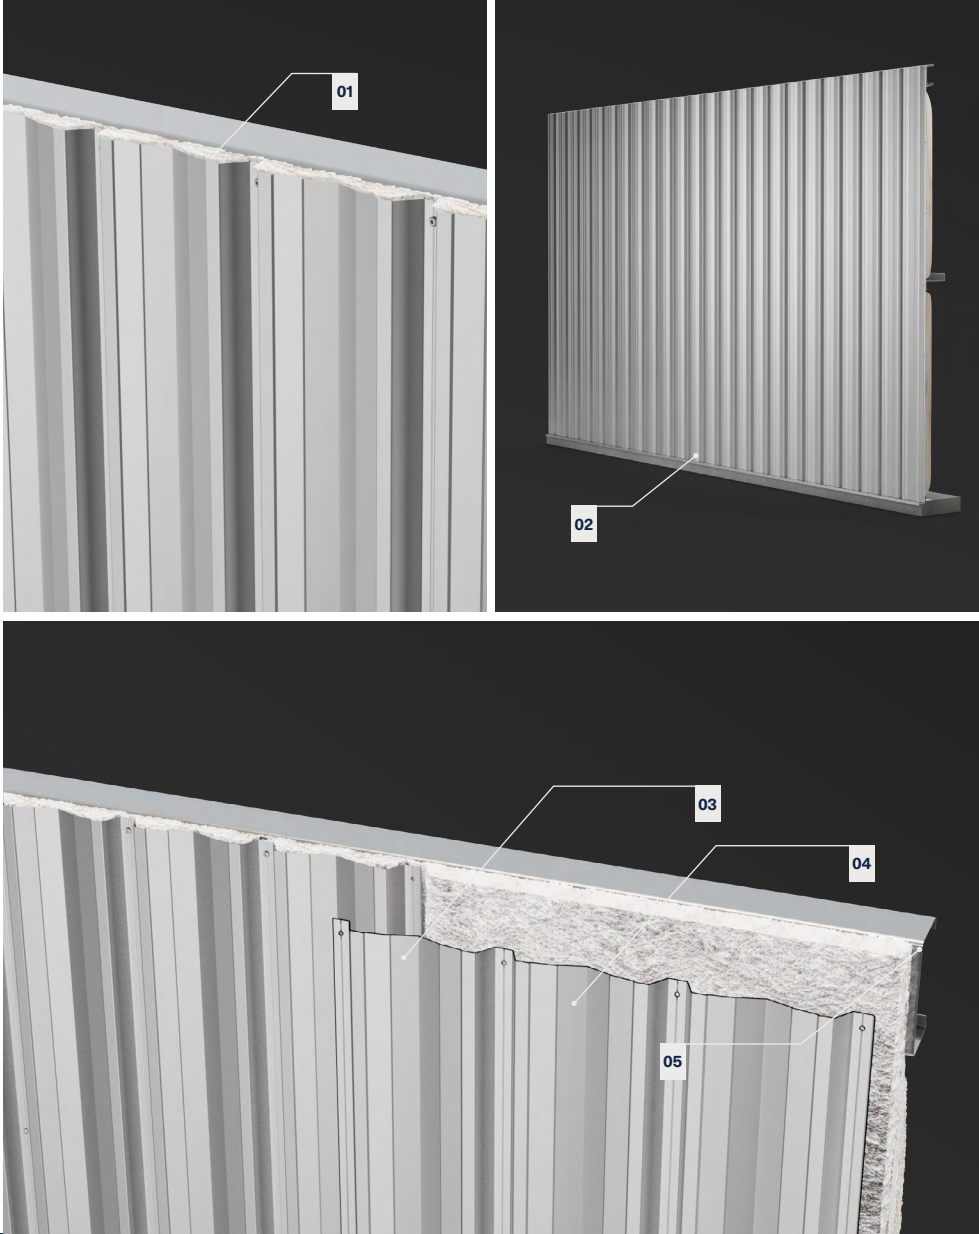

If you're looking for the perfect balance of form and function, look no further. With a sleek, modern profile and concealed-fastener design, it enhances the architectural appeal of any building while providing exceptional thermal performance and lasting durability. Engineered for efficiency and designed for distinction, it installs quickly and performs beautifully for decades.

KEY BENEFITS

- **Energy Efficiency**
Reduces heating and cooling costs.
- **Architectural Appeal**
With flexible design options, this wall system looks as good as it works.
- **Faster Timelines**
Reduces labor hours while simplifying installation.
- **Lower Lifecycle Cost**
Durable finishes minimize maintenance and extend service life.

PRODUCT FEATURES

- 1. Integrated Insulation System**
Improves thermal performance and reduces thermal gaps.
- 2. Vertical Rib Profile**
Creates a refined, modern exterior with semi-concealed fasteners.
- 3. Factory-Made Panels**
Ensure consistent quality and precise field alignment.
- 4. Durable Finish Options**
Resists fading, chalking and weathering over time.
- 5. System Integration**
Coordinates with Butler roofs and structures for complete envelope performance.

SPECIFICATIONS

Panel Type	Architectural semi-concealed fastener panel
Panel Profile	1 $\frac{7}{16}$ " Roll Form Corrugation
Panel Width	36"
Panel Gauges	24 and 26-gauge steel
Fastener Type	Semi-concealed
Finish Options	Butler-Cote™ finish system
Insulation Options	Fiberglass blanket
Maximum Insulation Thickness	6"
Lowest Tested U-Factor	0.072
Warranty	25-year Butler-Cote finish warranty
