

VSR-II™ ROOF SYSTEM

This roof is designed for projects where visibility matters and expectations are high. Clean lines and a modern profile create confidence at first glance, while precision engineering ensures performance that holds up over time. Every detail works together to deliver consistency, protection and peace of mind. The result is a roof that supports the vision, endures the elements and stands as a visible sign of quality long after the project is complete.

KEY BENEFITS

- **Architectural Confidence**
Is clean and modern when visibility matters most.
- **Executional Reliability**
Offers smoother installation and predictable results from start to finish.
- **Enduring Protection**
Stands up to weather exposure and performs year after year.
- **Thermal Performance Support**
Designed to help manage heat gain and support energy-conscious building goals.
- **Reduced Upkeep**
A streamlined surface that minimizes wear points and helps preserve performance over time.

PRODUCT FEATURES

1. Concealed Fastener System

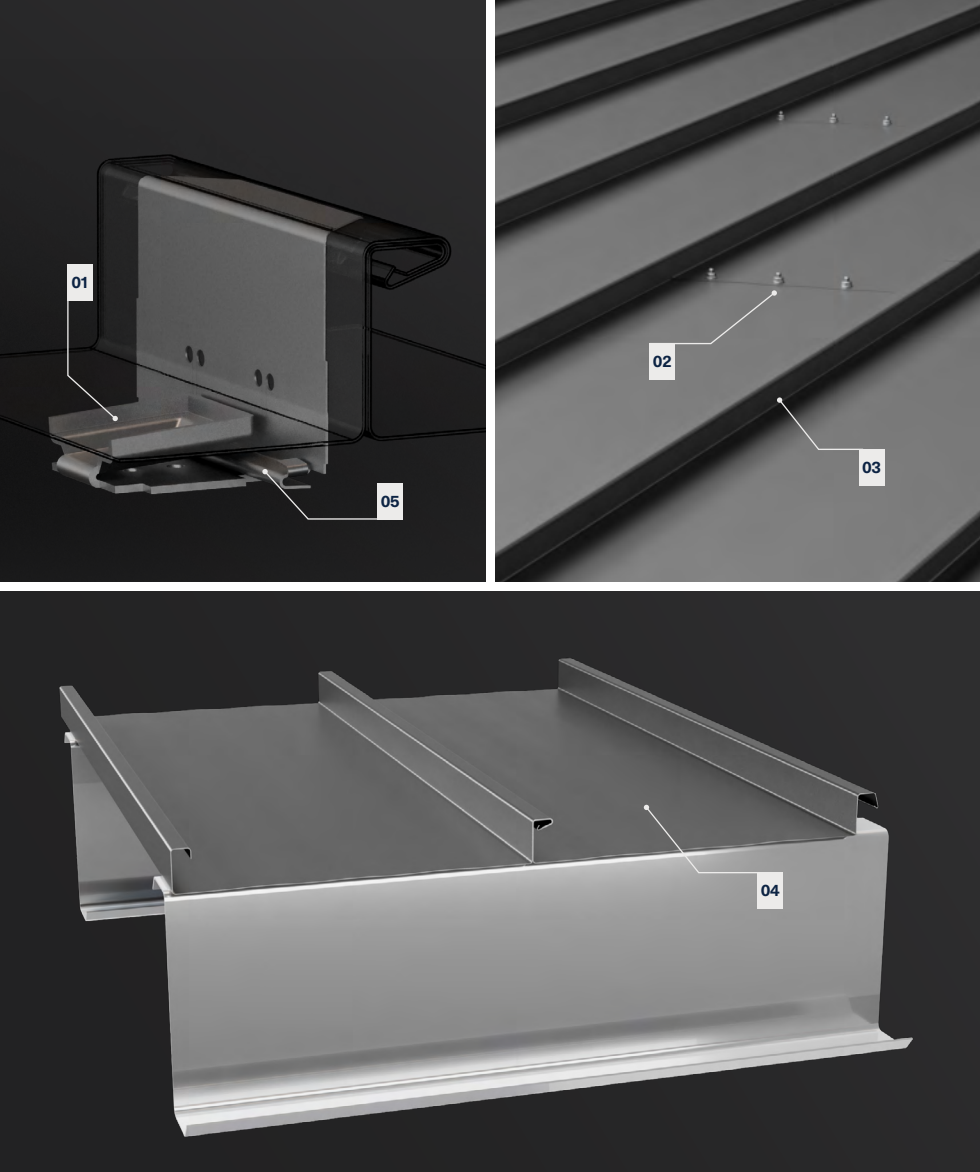

Protects attachment points and supports sleek architectural lines.
2. Factory-Punched Precision

Punched and notched panels ensure accurate panel alignment and consistent sealant application at critical connection locations.
3. Standing Seam Geometry

Uses a 16" panel width with a 2" high standing seam.
4. Structural Performance

Engineered for low-slope and high-slope metal roofs with proven durability.
5. Thermal Movement Control

Concealed clip system accommodates expansion and contraction.

SPECIFICATIONS

Panel Type	Standing seam roof with mechanically seamed panel
Panel Profile	2" tall seam with parallel striations
Panel Width	16"
Panel Gauges	24 and 22 gauge
Fastener Type	Concealed with floating clips
Finish Options	Butler-Cote™ finish system and Galvalume® available
Insulation Options	Fiberglass blanket
Maximum Insulation Thickness	6"
Lowest Tested U-Factor	0.050
Testing	UL Class 90, FM Class 1 approved, Class 4 Impact Resistant, Miami-Dade certified
Warranty	Up to 25-year weathertightness and finish warranty
