

# eSHADOWWALL™

When you need the assurance we are known for and the reliability that lasts for the long-term, this wall system offers high-energy performance that's up to modern code without the cost of insulated panels.

Get high-energy performance that's up to modern code without the cost of insulated panels. Instead, its patented thermal spacer blocks reduce thermal bridging to ensure a modern appearance that is as durable as it is pleasing to the eye.

## KEY BENEFITS

- **High Energy Performance**  
Delivers tested thermal performance supporting demanding energy requirements with confidence.
- **Lower Installation Cost**  
Uses up to one-third fewer fasteners, reducing material usage and speeding installation in the field.
- **Cleaner Appearance**  
Semi-concealed fasteners create smoother wall lines and a more refined architectural finish.
- **Long-Term Reliability**  
Minimizes thermal bridging to help maintain consistent energy performance over the life of the building.

# PRODUCT FEATURES

- 1. Patented Thermal Spacer Block**  
Minimizes thermal bridging and preserves insulation loft.
- 2. Factory-Punched 24-Gauge or 26-Gauge Panels**  
Support fast, precise installation.
- 3. 36" Panel Width**  
Covers large areas quickly and efficiently.
- 4. 1 $\frac{7}{16}$ " Corrugation**  
Accommodates semi-concealed fasteners for improved appearance and weather protection.
- 5. Butler-Cote™ Finish**  
Resists chalking and fading with a 25-year warranty.
- 6. System Compatibility**  
Integrates with MR-24® roof system and TBS™ insulation.

# SPECIFICATIONS

Panel Type	Shadowall Wall System with thermal spacer block
Panel Profile	1 $\frac{7}{16}$ " Roll Form Corrugation
Panel Width	36"
Panel Gauges	24 and 26-gauge steel
Fastener Type	Semi-concealed
Finish Options	Butler-Cote finish system
Insulation Options	Fiberglass blanket with spacer block
Maximum Insulation Thickness	9 $\frac{1}{4}$ "
Lowest Tested U-Factor	0.043
Warranty	25-year Butler-Cote finish warranty
